

ILL staff members with Illume User Admin permissions are able to manage their library's staff and patron user accounts in Illume (SHAREit). Best practices and guidelines for setting up user accounts are included in this guide.

User accounts are managed in the User Admin tab:

- To create a new user account, click on “**Add a User**” in the left-hand menu.
- To edit an existing user account, click on “**Edit User Accounts**” in the left-hand menu and click Submit to view all user accounts.

### To view and edit your library's user accounts:

---

1. Login to your library's Illume **Admin** account.
2. Click on **Staff Dashboard > User Admin tab > Edit User Accounts > Submit** to view all accounts. If you don't see this tab, contact your Illume Admin or the [Illume Administrative Support Centre](#) for assistance.
3. To view which permissions have been enabled for an account, click on the account name.

[NOTE: Please **do not edit or delete the following accounts** unless instructed to do so: **guest, patron, ELN Admin, agstaff**]
